SUBJECT OFFSITE SHIPMENTS FROM "NO RISK" AREAS

Waste Operations requests approval to resume offsite shipments of all wastes (solid & liquid) from "no risk" areas, as defined and listed in IL (URIRF.3) dated 11/16/88, from R. S. Roberts to J. R. Marschall. Waste Operations proposes shipping wastes generated in these areas without radiological monitoring or sampling. Please send a letter of approval to E. R. Naimon, Waste Operations, Building 374, and a copy for my file.
